The Nedis assortment offers a diverse range of products across various connectivity lines. From devices and networking solutions to audio accessories and mobile devices accessories. Whether you're looking for seamless internet connections, audio cables for perfect signal transmission, or brilliant sound and razor-sharp images in Full HD to Ultra HD with 8K, the Nedis connectivity range has it all. Our assortment of connectivity products and retail concepts showcases innovative designs, space efficient, modular packaging concepts.

Knowledge and quality

Our cable specialist have over 40 years of experience in connectivity solutions are up-to-date with the latest developments. Nedis meets and exceeds international standards and use high-end test labs to proof compliance. Nedis is a Amfori BEPI & BSCI member and fully supports the BSCI Code of Conduct and our manufacturers are AMFORI BSCI approved. That's why we as Nedis ensures compliance with social standards and ethical practices in the supply chain.

Environmental friendly

At Nedis, we are also dedicated to reducing our environmental impact. Our new retail concepts embrace sustainability, and we take pride in offering environmentally friendly options. We have worked diligently to minimize plastic usage, and our packaging concepts now utilize eco-friendly and plastic-free materials. By opting for sustainable packaging, we aim to reduce waste and contribute to a cleaner planet.

Modular Packaging Concept

Nedis makes use of a modular packaging concept that efficiently accommodates multiple pack sizes and allows for the combination of different product ranges. This approach optimizes space usage during shipping and storage, contributing to cost savings and reduced environmental impact.

With the new modular packaging concept Nedis adopts a “good, better, best” strategy, enabling to combine different series with varying features and performance levels into one retail concept.

The combination of modular packaging, various pack sizes, and tiered product offerings results in a high profitability per square meter.

The modular concept consist of ca 20+ plastic free pack sizes ensures that Nedis can efficiently utilize retail and storage space, leading to better inventory turnover and increased profitability.

Nedis Connectivity Self Select Concept

Nedis created a packaging concept that is color-coded, offering a user-friendly and convenient self-select shopping experience for consumers. By utilizing distinct colors for different product categories or types, Nedis makes it easy for customers to quickly find and distinguish the products they need.

This approach streamlines the shopping process, enabling consumers to locate desired items with ease. The color-coded packaging also aids in identifying specific features or specifications at a glance.
